

Loss Control Internet Resources for CCMSI Clients

A wealth of valuable loss control information is at your fingertips. In addition to on-site loss control service, CCMSI offers its clients resources through a password-protect Internet website. The website offers a vast amount of resources to supplement your safety program.

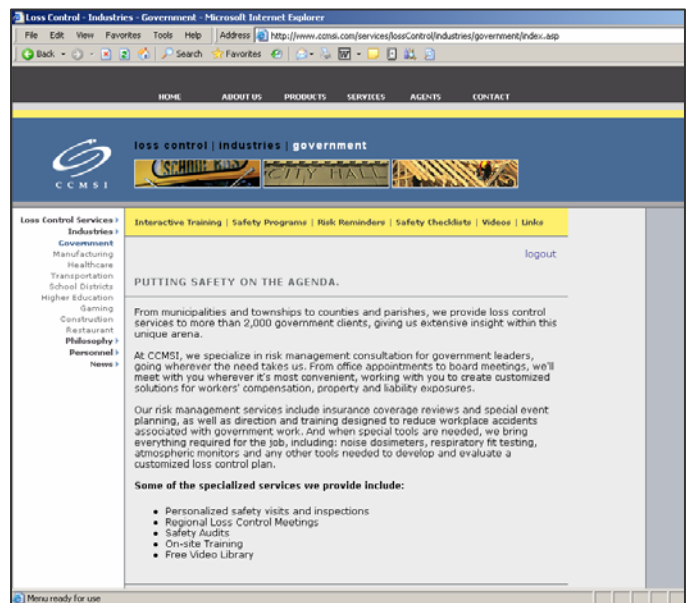

- INTERACTIVE TRAINING
- WRITTEN SAFETY PROGRAMS
- RISK REMINDERS
- SAFETY CHECKLISTS
- VIDEOS
- WEB LINKS

YOUR SAFETY RESOURCE

CCMSI provides clients with the following resources: interactive training, written safety programs, risk reminders, safety checklists, videos and web links. After entering your user id and password, you can access industry specific information tailored to your loss control resource needs.

Industry information such as Manufacturing, Healthcare, Transportation, School Districts, Higher Education, Gaming, Construction and Restaurant are available.

The safety resources are updated on a weekly basis. If you have comments or suggestions, please contact George Peterson at 800-252-5059, ext. 1371.

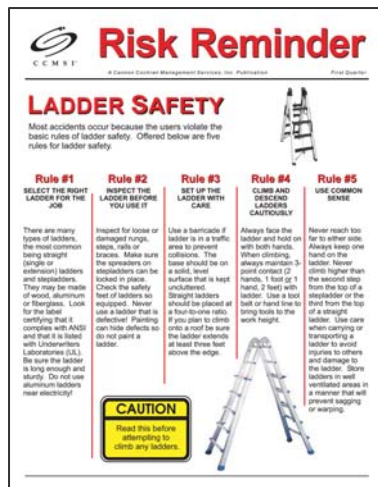

ONLINE INTERACTIVE TRAINING PRESENTATIONS

CCMSI's has developed 6 OSHA compliant on-line interactive safety training modules. The interactive modules provide employer's with 24-hour accessibility in either English or Spanish versions. Module topics include: Back Safety, Bloodborne Pathogens, Fork Lift Safety, Lockout Tagout Safety, Machine Guarding and Office Ergonomics.

Participants successfully passing the training and quiz receive a course certificate. The modules also include password-protected administrative functions for employer's to access quiz results and records.

WRITTEN SAFETY PROGRAMS

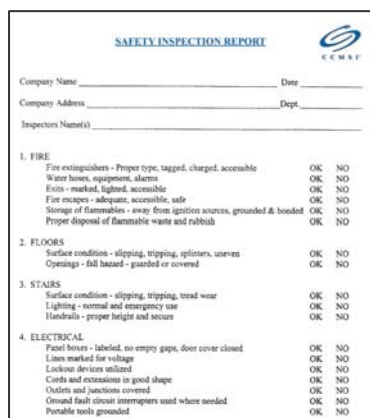

Written safety programs are the foundation of an effective loss control program. They offer simple direction for employees to follow and a valuable framework for change when questions arise. Here are just a few written programs we've used to assist other clients with similar needs: Accident Investigation Training, Back Pain Exercises, Bloodborne Pathogens and Confined Space Program.

RISK REMINDERS

Risk Reminders are simple, one-page documents you can use on the job to improve safety awareness and prevent unnecessary injuries. Use them for staff meetings. Post them in the break room. Or include them as paycheck stuffers. Anyway you use them, they're a simple way to keep safety first and foremost on the minds of your employees. Check out a few of the risk reminder topics below:

- Mounting and Dismounting Equipment
- Road Construction Safety
- 3 Points to Safety
- Slips Trips and Falls
- Ten Tips to Help Contain Workers Compensation

SAFETY CHECKLISTS

Safety checklists offer clients a simple and convenient way to make sure unsafe conditions are being properly addressed. CCMSI has a wide range of checklists tailored to your specific needs. A few of the available checklists are below:

- Building Inspection
- Confined Space Entry
- Safety Inspection Report
- Security Training Checklist
- Slips Falls and Lifting Training Checklist

INSTRUCTIONAL VIDEOS

Instructional videos are one of the easiest and quickest ways for employees to absorb important safety procedures. The following selections are currently available to assist CCMSI Clients with employee safety training. Clients can check out the videos from our loss control library for two weeks. A few of the video titles are below.

- Accident Causes and Prevention - 12 min.
- Controlling Back Injuries - 10:55 min.
- Electrical Safety Overview - 9:15 min.
- Eye and Face Protection - 5 min.

WEB LINKS - In addition to the information on our website, CCMSI provides links that will establishing or supplement your loss control program.
